

Overview of Simplex Test Procedures

1. Request stations to transmit in a section.

Identify a date and time for the test.

Ask for name and call sign

2. Compile a list of transmitting stations (about 10)

3. Create a Simplex test sheet

List transmitting stations

Identify Simplex frequency

Indicate Date and Time

4. Identify Test Controller

5. Send Email to Group asking for listeners.

In email provide;

Name and call sign of test controller

Simplex Test Number (S1 - S24)

Date and time

Identify Simplex test section

Completed Simplex test sheet

Instructions on how the test will be accomplished

Have them read the "Test Controller Script" on GARS Website
